Re: 6,100' Sand, Reservoir A
Crowley Field
Acadia Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **CAMEX OPERATING COMPANY**, for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the 6,100' Sand, Reservoir A, in the Crowley Field, Acadia Parish, Louisiana, for which rules and regulations were established and a single drilling and production unit was created for the exploration for and production of oil and gas by Office of Conservation Order No. 544-AA, effective April 1, 1981, said unit designated 6100 RA SUA:

1. To permit the applicant to drill, designate and utilize its M. Leger A-1 Well as substitute unit well for the 6100 RA SUA, said well located as shown on the plat attached hereto.
2. To find that this well is necessary to efficiently and economically drain a portion of the reservoir covered by the unit which cannot be so drained by any existing well within such unit.
3. To designate the existing unit well, the Camex Operating Company - M. Leger A-2 Well, as alternate unit well for the 6100 RA SUA, said well located as shown on the plat attached hereto.
4. To permit the operator to produce the unit allowable from the proposed substitute unit well and/or the proposed alternate unit well in any combination at the discretion of the operator.
5. To grant whatever spacing exceptions are necessary with respect to the above-mentioned wells.
6. Except to the extent herein set forth, to continue in full force and effect the provisions of Office of Conservation Order No. 544-AA, effective April 1, 1981, and the unit created thereby.

July 12, 2007

7. To consider such other matters as may be pertinent.

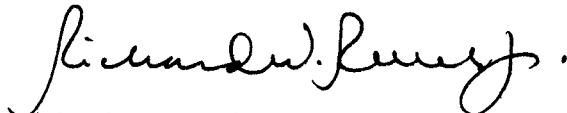

The 6,100' Sand, Reservoir A, in the Crowley Field, Acadia Parish, Louisiana, was previously defined in Office of Conservation Order No. 544-AA, effective April 1, 1981.

The proposed substitute and alternate unit wells will permit efficient and economic recovery of hydrocarbons underlying the unit and are needed to satisfy the market demand for oil and gas from the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal and a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 **made payable to the Office of Conservation** representing the required hearing application fee .

Very truly yours,

Richard W. Revels, Jr.
